

IN NEW YORK SOCIETY

Beautiful Women of the "400" Who Have Luxuriant Hair.

In gay New York, where women get their ideas from their sisters abroad, the hair tonic called Parisian Sage is in great demand.

A great scientist, undoubtedly one of the most eminent hair specialists in the world, is the discoverer of Parisian Sage. He claims most emphatically that it is the only hair preparation that will kill the persistent dandruff germs.

At any rate, the Groux Mfg. Co. of Buffalo, N. Y., sole manufacturers of Parisian Sage in the United States, gives through their agent, Schramm-Johnson Drugs, "The Never Substitution," five stores, "where the cars stop," this money-back guarantee, which is no doubt strong enough and plain enough to please the most exacting.

"We guarantee Parisian Sage to cure dandruff in two weeks; to stop falling hair; to make dull, lifeless and colorless hair beautiful and luxuriant; to cure all itching diseases of the scalp, or money back."

The price is only 50 cents a large bottle at Schramm-Johnson Drugs, "The Never Substitution," five stores, "where the cars stop," or by express, all charges prepaid, from Groux Mfg. Co., Buffalo, N. Y.

GOULD ROADS MAY GET OCEAN LINE

Railway Officials Hold Conference With Japanese Steamship Agents Here Today.

SCHLACKS WILL ATTEND

D. & R. G. VICE PRESIDENT TO INSPECT DEPOT.

As a result of a conference between officials of the Denver & Rio Grande and the Western Pacific to be held in Salt Lake today with officials of one of the big Japanese steamship lines which operate between San Francisco and the Orient, a deal will likely be made whereby the transcontinental lines will be first class with ocean connections for export and import business. This steamship line has been operating in connection with Harriman lines.

It is understood that a deal has been made whereby the Denver & Rio Grande has concluded an arrangement whereby the Denver & Rio Grande will work in conjunction with eastern trunk lines in handling transcontinental business via the Western Pacific. The meeting today is to extend the service by water to and from the Orient.

Wadleigh Coming. F. A. Wadleigh, assistant general passenger agent of the Denver & Rio Grande, yesterday wired Colonel I. A. Benton, general agent of the passenger department here, that he would arrive in Salt Lake today, accompanied by representatives of the Japanese steamship company, and requested that arrangements be made for a special or regular car to the Tabernacle during the afternoon.

Colonel Benton was also advised that Charles H. Schlacks, first vice president of the Denver & Rio Grande and the Western Pacific, and E. L. Lomax, passenger traffic manager of the Western Pacific would arrive today. They will meet Horace W. Clarke, vice president of the Denver & Rio Grande, and a conference with the Japanese steamship officials will be held during the afternoon or early evening.

Will Inspect Depot. It is the first visit Vice President Schlacks has paid Salt Lake in several months. In addition to the important steamship matter, he will inspect the new Rio Grande and Western Pacific passenger depot and terminals. Mr. Lomax will be busy perfecting arrangements for the opening of passenger service on the Western Pacific August 22.

Mr. Schlacks and Mr. Clarke will also confer on a number of matters of importance to plans and policies of the Rio Grande in its relation to the Western Pacific.

The great importance and value of the Western Pacific to Salt Lake is reflected in the fact that Salt Lake is being made the meeting point for conferences of the Gould officials.

Despair and Despondency

No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured completely upset the nerves if long continued.

Dr. Pierce's Favorite Prescription is a positive cure for weakness and disease of the feminine organism.

Ask Your Neighbors. They probably know of some of its many cures.

If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper cover. HILL'S OPERATIONS WORRYING LOVETT

Head of Harriman System Making Personal Inspection of Oregon Situation.

The Jim Hill activity in central Oregon is said to be one of the reasons for the personal inspection now being made by Robert S. Lovett, the executive head of the Harriman system in the territory which has always been considered exclusive by the Harriman interests. It is said that Jim Hill will be very active in building railroads into Oregon during the year, and the visit of President Lovett is supposed to be for the purpose of looking over the field and outlining a campaign for the Harriman interests to meet Hill's advances.

President Lovett has been engaged for several days in making long automobile trips in central Oregon, covering much of the ground recently gone over by Louis Hill and his party. The big railroad man is also inspecting the extensions being made by the Harriman lines in Idaho and Oregon.

It is rumored that the meeting held at Ontario the other day when Judge Lovett conferred with officials of the Oregon Short Line and the O. R. & N., had to do with a plan for a transfer of that portion of the Oregon Short Line between Ontario and Huntington to the O. R. & N. company. In the absence of General Manager Bancroft from the city the report can neither be affirmed or denied.

Credence is given to the rumor because of the fact that the Short Line has purchased land in Ontario, and it is said it will be used for terminal grounds.

The meeting at which the deal is said to have been arranged was held at Ontario the other day and was attended by President Lovett, head of the Harriman system; W. H. Bancroft, vice president and general manager of the Oregon Short Line; D. E. Burley, general passenger agent of the Short Line, and Parley Williams, general agent of the Short Line; J. P. O'Brien, vice president and general manager of the O. R. & N.; W. W. Cotton, general attorney for the O. R. & N., and Chief Engineer Beck of the O. R. & N.

RAILROAD NOTES.

It is the expressed belief of a number of local railroad passenger men that the Western Passenger association is preparing to make a special effort to in some way stop the abuse on railroad tickets upon which stop-over privileges are given by the railroad companies. Col. L. A. Benton, vice president of the Denver & Rio Grande says that hotel "hops" have nearly all turned scalpers and traffic in tickets which call for stopover privileges.

General Manager R. E. Wells, of the Salt Lake route, arrived in Salt Lake at 6 o'clock yesterday in his private car. It was attached to the special leaving an hour later, which left for Los Angeles with William A. Clark, president of the Union Pacific, vice president of the Salt Lake route and W. H. Bancroft, vice president and general manager of the Oregon Short Line.

W. B. Townsend has been appointed district freight and passenger agent of the Western Pacific with headquarters at Oakland. C. K. Jenkins has been appointed traveling passenger agent with headquarters in San Francisco.

Henry C. Burnett, who years ago was general agent for the Colorado Midland in Salt Lake, has been appointed assistant freight traffic manager of the Lehigh Valley railroad with headquarters in New York.

Preparations are being made to commence work on the \$20,000 sub-station for the Utah Light & Railway company at State road and Highway 66. The transmission lines for the Big Cottonwood plant is now being erected.
